

About - NSE India Limited

•The National Stock Exchange of India Limited (NSE) is the largest stock exchange in India and the world's largest derivatives exchange by number of contracts traded. Based in Mumbai, it was the first exchange in India to introduce a fully automated, screen-based electronic trading system, revolutionizing the country's capital markets.

•**1992:** NSE was incorporated to bring fairness, efficiency, and transparency to the Indian capital market, an initiative sponsored by leading financial institutions at the behest of the Government of India.

•**1994:** NSE began operations with the wholesale debt market, followed by the launch of the cash equities segment later that year. Its technology-driven platform quickly enabled nationwide access for investors.

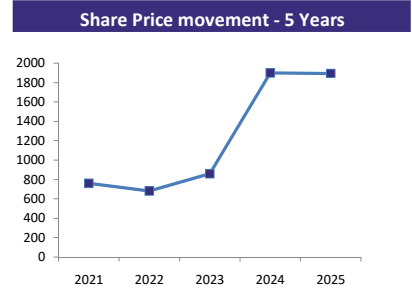

•**2000:** The derivatives segment was launched, introducing futures and options trading to the Indian market.

•**2012:** The NSE EMERGE platform was created to facilitate the listing and trading of small and medium-sized enterprises (SMEs) and startup companies.

•**2023:** A Social Stock Exchange was launched to allow social enterprises and non-profit organizations to raise funds from the public.
